

ABEL

Relax armchair from the Adan & Eva family

Abel is a relax armchair from the Adan & Eva family. It differs in the silhouette of the arm, which modifies the original design to lower the arm profile.

Unlike the Eva model, it does not include arm cushions. Its width is identical to the Eva model. In addition, it only needs to be separated from the wall by 5 cm.

It can be chosen with either a hidden touch button panel or the Sensae system.
